

Conergy makes and supplies a wide range of pole mounts, designed to meet all your off-grid solar mounting needs. The table below identifies which mount to use in any configuration.

vpm series mounts

Our VPM series mounts are designed to mount solar modules vertically (90°) on a nominal 2" pole. These mounts are highly recommended in Northern locations.

pm series mounts

Our PM series mounts are designed to mount solar modules at a 70° angle on a nominal 2" pole. These mounts will help deliver more power in the summer months than the 90° (vertical) mount but are occasionally subject to snow build-up during the winter

Solar Module	Qty	Mounting Angle	
		90°	70°
C-10	1	VPM1-13	PM1-13
C-20	1	VPM1-21	PM1-21
	2	VPM2-21	PM1-21
C-30	1	VPM1-21	PM1-21
	2	VPM2-21	PM1-21
C-50	1	VPM1-21	PM1-21
	2	VPM2-21	PM1-21
C-75	1	VPM1-21	PM1-21
	2	VPM2-21	PM1-21
C-123	1	VPM1-26	PM1-26
	2	VPM2-26	PM1-26
C-130	1	VPM1-26	PM1-26
	2	VPM2-26	PM1-26
C-140	1	VPM1-26	PM1-26
	2	VPM2-26	PM1-26
